RE: Docket No. RM 2017-12

Dear Commissioners:

I am writing on behalf of The Nature Conservancy, and most importantly our **one million members**, for whom we work to **conserve the lands and waters on which all life depends**. We rely on the U.S. Mail to raise funds and communicate with our supporters and constituents. Without the mail, our fundraising would suffer severely and, consequently, so would our mission.

We simply do not understand why suddenly there is a need to increase nonprofit marketing mail rates for the nominal benefit of commercial marketing mail. This would seem to fly in the face of the rationale of the law granting nonprofits a discounted rate.

As a practical matter, injecting unanticipated increases such as those proposed here by USPS will mean that our fundraising budget will not be able to keep pace with the increase in postage costs. The inevitable result will be a reduction in our use of the mail, a reduction in our revenues, and, in turn, a reduction in our ability to serve our beneficiaries and support our great mission.

Please do not change the current system for calculating nonprofit rates. Implemented by the Postal Service ten years ago, we see no pressing need for a change, especially not one that will do harm to all nonprofits using the mail.

Respectfully,

Renay Galati
Production Director, Membership Fundraising
The Nature Conservancy
